To Whom It May Concern,

The Israeli National Olympic Committee has been cooperating with "Erica Carmel LTD" in the medical and scientific field. The company developed and manufactured "**The B Cure Laser device**" - a laser (LLLT-Low Level laser Therapy) medical device for professional sportsmen and athletes, suffering from sports injuries, inflammation, Sport's pain, Orthopedic problems and open wounds. The B Cure laser device was chosen to be the official medical device of our national team to the Olympic Games.

After 2 years of use by our Olympic athletes, in various sports including Judo, Rhythmic Gymnastics, Athletics, Ball Games, Fencing, Swimming and many more, I would like to introduce you with the device, which is recommended by our Elite athletes who are very pleased from its effective results.

Attached please find a letter by Mr. Michael Schlosser, Founder and Chairman of Erica Carmel LTD, describing the device, as well as a comprehensive review by Dr. Luba Galitskaya the Israeli Olympic Team physician and Dr. Maya Cale Benzoor, Head Department of Physiotherapy at the Wingate Institute and a Testimonial from Neta Rivkin, top Olympic athlete in Gymnastics.

We are very pleased from the cooperation with Erica Carmel Company and will be glad if you could also cooperate with Mr. Michael Schlosser.

Thank you for your cooperation

Yours truly,

Gilad Lustig
CEO
